

PRINTABLE SIZING TEMPLATE (FOR SANDALS)

ALL SIZING BASED ON MEN'S US & UK

STEP 1

PRINT SCALING AT 100%

Before printing, be sure to set print scaling to 100% on your print dialog box. To ensure the guide is printed at the correct format, measure the millimeter scale using a ruler. The printed scale should be consistent with the millimeter scale in the ruler.

STEP 2

CONNECTING THE TWO SHEETS

Cut the right page at the dotted line. Align the two "V" markers on both left and right pages. Then tape both sheets together to connect them. Make sure when viewing the full foot diagram that all lines are smoothly aligned.

STEP 3

MEASURING YOUR FEET

Place your heel on the triangle above. Then check where your foot sits on the lines above. If needed, trace an outline of your foot and see where the line fits on the scale.

REMARKS

SIZE CHART (REFERENCE ONLY)

The size chart is to be referred to for reference. Please use the guides as the correct measure for sizing. The guides are based on the US & UK Men's sizing scale. Please refer to the table down below for your respective country sizing scale.

NO HALF SIZES

We do not offer half sizes. When referring to our chart we recommend following the measurement lines as your accurate sizing. Due to not having half sizes, if your foot falls in between two regions of the lines, we recommend sizing up.

MEASUREMENT CONVERSION

Our products typically follow the centimeter (cm) measuring scale. This chart is in millimeters, so please bear in mind the conversion from mm to cm. In addition, our footbeds give a bit of "buffer" space in front and heel so measurement will not equal to exact conversions.

MM	236.8	245	254	271	279	287.5	296	304.5	313	321	330	338.5	347	355	364
US (M)	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18
